PROFESSIONAL EXPERIENCE

Cogniterm.ai, AI-Powered Medical & Agricultural Knowledge Platform

Remote

Marketing & Operations Intern | September 2026–Present

- Curate and verify clinical, medical, and agricultural literature to expand the AI's verified-answer knowledge base for the dairy and beef sectors
- Set up a Python and Linux development environment, including Claude Code, to prepare for deeper collaboration with the engineering team
- Research and propose marketing strategies to position the platform for a farmer/agricultural end-user base
- Evaluate website content and UX, recommending improvements for usability and information accessibility

UC Berkeley Business & Entrepreneurship Summer Program

Berkeley, CA

Program Participant | July 2023

- Developed and pitched a full, comprehensive business plan to industry professionals
- Completed intensive coursework in business strategy, venture development, and startup fundamentals
- Networked with peers and faculty to build a foundation in entrepreneurial thinking

Waveny Care for Seniors

New Canaan, CT

Volunteer Coordinator | Fall 2021–2024

- Provide ongoing support and companionship to elderly residents in an assisted living facility
- Organize recreational activities and assist with daily care needs, showing commitment to community service
- Demonstrate reliability and compassion while developing interpersonal communication skills

PROJECTS

Business Research and Consulting Project, Rutgers University

2024

- Partnered with a team to research Mid Island Collision Center, conducting management interviews and employee surveys to identify key business challenges around revenue and employee satisfaction
- Developed data-driven recommendations to help leadership address operational and staffing inefficiencies
